this landmark book the first complete history of panentheism written in english explores the subject through the lens of various thinkers and discusses how it has influenced liberation feminist and ecological theologies

many people believe in angels and evil spirits and popular culture abounds in talk about encounters with such entities yet the question of the existence of such spirits is ignored in the academy even the christian church which one might expect to show keen interest in transcendent realities does not appear to be paying much attention in this book phillip wiebe defends the plausibility of the traditional christian claim that spirits are real wiebe examines descriptions of encounters with both good and evil transcendent beings in biblical times and in later christian history along with recent accounts of similar experiences he argues that invisible beings can be postulated to explain events just as unobservable objects are postulated in many scientific theories beyond supporting claims for the existence of lesser spirits such as demons and angels this empirical approach yields important results for assessing common

arguments surrounding the existence of god a question that has become artificially separated from the question of spirits as such grounding his argument in a wide range of phenomena from near death experiences to demonic possession wiebe offers a sophisticated case for belief in god on philosophical and epistemological grounds

this book examines in depth and at length what the old testament and the new testament hold about the salvation of god s other peoples the bible repeatedly witnesses to the universal scope of the divine love for all human beings and the chances of salvation that are available to them since the israelites experienced for many centuries both at home and abroad the religion and culture of numerous other peoples the old testament texts have much to say both positively and negatively about the religious prospects and destiny of these peoples in its second half this book scrutinizes what jesus the evangelists paul and the letter to the hebrews indicate about god s loving designs for all human beings at the end the book breaks new ground by developing the universal presence of the risen jesus along with the holy spirit and his role as universal wisdom and the full teaching of the letter to the hebrews on the possibility of faith for all people
